

Groupanizer SING! Info Sheet

April 2010

What is Groupanizer SING?

Groupanizer is a web-based system design specifically to help you get the most out of your chorus or choir. It's simple enough to be used by non-techies, and it's on the internet so it lets everybody work together.

Key Features and Benefits

- Online service means no hassles
- Replaces all your other online services, in an integrated package
- Dashboard gives each member a view of everything important at a glance
- Online member list and contact info
- Post music and learning tracks, and track downloads
- See how everyone is doing with every song so you can plan effective rehearsals and make progress quickly
- Task Manager keeps projects moving forward and prevents dropped balls
- Event calendar integrated with attendance records and prediction, so you know who is coming to each event
- Recruiting tracker helps you grow
- Email lists and notifications keep everyone informed, and keep everyone on track with a minimum of nagging
- Forums, polls, birthdays, and lots of other fun features
- Customize and extend to suit your needs - great foundation for a public web site! See screenshot examples →
